

EN 60332-1-2

Clause	Requirement + Test	Result - Remark	Verdict
ZTT 3.0mm (ZTT 0978)			
5	Procedure		
	Sample length (600 ± 25 mm).....	615	P
	Approx. outer diameter (mm).....	3,0	
	Flame application time (s)....	60	P
6	Evaluation of test results		
	Not damaged area from lower edge of the test specimen.....	000	
	Not damaged area from upper edge of the test specimen.....		
	Not damaged area from side edge of the test specimen.....		
	Not damaged area from top edge of the test specimen.....		
	Not damaged area from bottom edge of the test specimen.....		
	Not damaged area from front edge of the test specimen.....		
	Not damaged area from back edge of the test specimen.....		
	Not damaged area from left edge of the test specimen.....		
	Not damaged area from right edge of the test specimen.....		
	Not damaged area from top-left edge of the test specimen.....		
	Not damaged area from top-right edge of the test specimen.....		
	Not damaged area from bottom-left edge of the test specimen.....		
	Not damaged area from bottom-right edge of the test specimen.....		
	Not damaged area from front-left edge of the test specimen.....		
	Not damaged area from front-right edge of the test specimen.....		
	Not damaged area from back-left edge of the test specimen.....		
	Not damaged area from back-right edge of the test specimen.....
